MEMBERS OF ROAD BOARDS ARE BARRED

Cannot Be Employed on Road Work in Any Capacity, Says Opinion of Assistant Attorney General.

Santa Fe. N. M., Nov. 18 .- Assistant attorney general Harry S. Clancy has put a stop to the practice of county read boards employing one of their members as superintendent, foreman or boss, or in any other number. He did so in an opinion rendered in answer to the query of state highway commissioner James A. French, who is also state enroads board to hire and pay daily wages to one of the members of the road board while such member is acting as a superintendent, foreman or boss?"

Mr. Clancy answers in the affirmative

and states his reasons as follows: "The members of the county state board are public officers and it is their duty to act solely for the public interest without reference to their own and for such a board to enter into a contract with one of its members for the performance of any labor, or to furnish any supplies, would be improper, inasmuch as the member so employed would necessarily be called upon to audit and pay an account in his own favor."

CAMINETTI DENIES U. S. IS EXCLUDING HINDU LABORERS

San Francisco, Calif., Nov. 18 .- Anthony Caminetti, commissioner general of immigration, appearing for his branch the government in a test case in the United States district court here, denied that it was the object of the government to exclude Hindu laborers as a class from this country. Judge Dooling had remarked that if the immigration bureau could establish a rule discriminating against Hindu laborers any more than against German laborers or those of any other nationality, it had more authority than he thought it had. The case on argument was a habeas

corpus action brought by 22 Hindus from Manila, who were arrested on arrival here and held for deportation on the ground that they were likely to become public charges. By the court's decision will be deter-

mined largely whether or not the bars shall be let down for all Hindus now in The contention of the Hindus is that they are no more subject to immigra-tion restrictions in coming to San Fran-cisco from Manila after being admitted at the latter port, than alien laborers would be in shipping from New York to New Orleans after having been passed
